## Professional Summary

Computer Science and Engineering graduate from United International University with academic project experience in database systems, object-oriented programming, and research on Bangla large language model hallucination detection. Familiar with Python, Java, SQL, relational databases, Git, and web application development concepts. Also experienced in data annotation and data quality checking. Eager to begin a professional career in IT, software development, or technical operations while continuing to develop practical engineering skills.

## Technical Skills

**Programming:** Python, Java, C

**Database:** SQL, MySQL, PostgreSQL, relational database concepts, joins, CRUD operations

**Development:** Spring Boot, REST API fundamentals, HTML, CSS, JavaScript

**Tools:** Git, GitHub, Postman, Selenium

**Data Quality:** Data annotation, validation, accuracy checking, structured data handling

**Professional:** Problem-solving, attention to detail, teamwork, documentation, time management

## Professional Experience

**Data Labelling Associate** *Feb 2026 – Present*
*Freelance*

- Annotate images using polygon and bounding-box techniques according to project guidelines.
- Review annotation outputs for accuracy, consistency, and completeness.
- Follow structured instructions and quality standards while meeting assigned deadlines.

**Image Annotator** *Mar 2025 – Jan 2026*
*ARC Annotation*

- Completed image annotation tasks according to project-specific instructions and labelling standards.
- Checked labelled data for consistency and compliance with task requirements.

**Typist and Data Entry Specialist** *2021 – 2024*
*Freelance / Fiverr*

- Entered and formatted information in Word and Excel according to client requirements.
- Organized documents and delivered assigned tasks within agreed deadlines.

## Academic Projects

**Research Collaboration Platform**

- Developed an academic platform to support research collaboration and information organization.
- Worked with object-oriented programming concepts and database-backed functionality.

**Student Room Rental System**

- Created an academic system for managing student room rental information using database concepts and structured records.

**Bangla LLM Hallucination Detection**

- Contributed to an academic research project evaluating Bangla LLM outputs and identifying potentially unsupported generated information.
- Supported literature review, dataset preparation, evaluation, and research documentation.

## Education

**B.Sc. in Computer Science and Engineering** *2020 – 2026*
United International University
All coursework and credits completed; convocation pending.

**Higher Secondary Certificate (HSC)** *2017 – 2019*
Government Tolaram College, Science

**Secondary School Certificate (SSC)** *2015 – 2017*
Hariharpara High School, Science

## Certifications

- Introduction to Networks – Cisco Networking Academy, 2023
- UX Research Strategy with AI – Grameenphone Academy

## Leadership and Volunteering

**Executive / Junior Executive – UIU App Forum**
Participated in student organization activities and teamwork.

**Digital Volunteer – Hult Prize**
Supported digital volunteering and collaborative activities.
